

MOBILITY CHALLENGES

- ▶ Managing the dramatic increase of mobile devices
- ▶ Mobile applications are now mission critical
- ▶ Continuous advancements in devices and applications
- ▶ Difficulty of tracking real-time location and status of thousands of devices
- ▶ Increased demands for security and compliance
- ▶ Tracking of mobile assets—SIM cards, service plans, device software, etc.
- ▶ IT help desks not adequately staffed
- ▶ Inability to manage disparate population of mobile devices remotely

AIRWATCH FEATURES

- ▶ Exception management dashboard
- ▶ Power-on-password / Active directory integration
- ▶ Simplified set up and deployment
- ▶ Application lock down
- ▶ Device monitoring
- ▶ GPS breadcrumb tracking
- ▶ Real-time tracking and management of mobile assets, including SIM cards
- ▶ SMS and phone log audit trail and analysis
- ▶ Remote control and screen capture
- ▶ Over-the-air application and OS updates
- ▶ Secure device lock and wipe

AIRWATCH BENEFITS

- ▶ Gain integrated, real-time visibility of mobile assets
